He started his baseball career as a pitcher in 1898, playing with a semi-professional team at Manistee, Mich. During the next two years he was tried and sent back by both Washington and Chicago. It was not until he drifted to Baltimore in 1901 that Roger made good. In 1902 the New York Giants landed him for a catcher and outfielder. He was a star in the world's series of 1905, in which the Giants beat the Athletics. Bresnahan got a chance to manage the St. Louis Cardinals and persuaded McGraw to let him go. In his first year as a Cardinal, 1909, he made his team hustle.

The Washington-Detroit game of June 10 will be remembered as one of the most remarkable ever played. The Senators won on one hit. In the third inning Clausen passed Moeller and Milan and was taken out. That three-base hit was the only drive by Washington that went safe.

1899 and 1900. Hartsel's good work in the Hoosier capital earned for him a place in the big show as a member of the Chicago Nationals of 1901. He joined the Athletics in 1902, and for nine years thereafter he was one of the mainstays of the Philadelphia team. During his stay in the Quaker City "Topsy" played on four pennant winning and two world's championship teams. He became manager of the Toledo team last season.

## Prevent Blocking Baserunners

Connie Mack advocates a change in the rules that will give a runner his base if the fielder blocks the way of a slide. As the code reads now, if a fielder blocks a man standing up the runner gets his base, but not when he slides. When that rule was written the Bresnahan invented sliding guards were unknown and nobody could imagine a catcher putting his legs purposely in the way of a speeder.
